Instructions
The field instructor is to evaluate and rate the intern according to the scale and
outline below. The areas of intern performance correspond exactly to the areas in the
Field Learning Plan. The standard by which an intern is to be compared is that of a new
beginning-level social worker. Ratings at the level of 5 should be rare as all BSW interns
are in burgeoning phases of generalist social work practice. The 10 competencies and
multiple practice behaviors that are specified in this evaluation form are those established
by our national accrediting organization (the Council on Social Work Education). Under
each competency statement are practice behaviors that we ask that you rate according to
the following criteria. Please rate the intern on those areas which are denoted with an “F”
for fall semester. If you consider areas of intern performance that are relegated to spring
semester , “S”, and wish to comment on the intern’s performance in that practice
behavior, please make note of that in the comment section. Comments may be made
under any competency statement, if desired. Please be sure to indicate those areas in
which you think the intern is particularly strong and those areas that need improvement.
This evaluation is intended to give the intern feedback about her or his
performance. It is expected that the intern utilize this evaluation to reflect upon their
semester’s performance and to identify areas needing more focused effort for the spring
semester of the internship. The agency field instructor rating of these items will not
directly be used to calculate the grade that is given to the intern. The faculty field liaison
has the responsibility of assigning the grade for the course.
