Cultural Diversity Experience

Please identify experiences you have had with varieties of cultures, whether those experiences were work or volunteer related, education related, travel experiences, summer camping experiences, diversity seminars, or other. Cultural Diversity may be identified as ethnic, racial, religious, social class, international, or “functional”. Functional diversities are: economic poverty, gender, sexual orientation, disability, or age. “Diversity experiences” implies relationships with people whose culture is different from one’s own culture. If you have had more than six such experiences, select the most intensive. Please be as thorough as you can. The subjective and relational nature of your experience can be explained in your narrative.
